

What is an ASC?

ASCs are facilities for surgical patients who do not need to be admitted to the hospital. ASC patients typically arrive for admission, have surgery performed in a full-service operating room with specialized staff, recover safely and quickly from anesthesia and return home within hours of their surgery. Some procedures require patients to stay for several hours to allow nurses to monitor their recovery.

What types of surgeries are performed at ASCs?

Depending on the ASC, the center may specialize in one service line such as plastic surgery or eye care, while other centers may offer multi-specialties such as ear, nose and throat procedures, gynecological procedures, general procedures, orthopedic procedures and podiatry procedures.

You have selected Skyway Surgery Center, a federally recognized Medicare Certified Ambulatory Surgery Center, for your health care services. Your physician may or may not have an ownership interest in the Surgery Center as not all physicians who practice here have an ownership interest. As a patient, you have the right to receive a list of all physician owners in this facility, upon request.

Why Choose an ASC?

ASCs are on the cutting edge of technology often utilizing the most current surgical innovations with the least invasive techniques allowing patients to return to their normal lifestyle sooner. ASCs are efficient, understanding that everyone's time is important. Their convenient surgical flow allows you less wait time and less bureaucracy and offers a patient-friendly family-centered environment.

Many ASCs have undergone a rigorous accreditation process performed by an independent accrediting agency. You may find these accreditations posted in your local ASC. These accreditations may include The Joint Commission (JC), the Accreditation Association for Ambulatory Health Care (AAAHC) or the American Association for Accreditation of Ambulatory Surgical Facilities (AAAASF).

Patient Rights and Responsibilities

This Surgery Center has adopted the following list of Rights and Responsibilities for Patients:

IN ACCORDANCE WITH SECTION 70707 OF THE CALIFORNIA HEALTH AND SAFETY CODE, THE FACILITY AND MEDICAL STAFF HAVE ADOPTED THE FOLLOWING LIST OF PATIENT RIGHTS:

- Exercise these rights without being subjected to reprisal and without regard to sex, cultural, economic, educational, religious background, or the source of payment.
- Treated with respect, consideration, and dignity.
- Provided personal privacy, receive care in a safe setting, and be free from all forms of abuse and harassment.
- Knowledge of the name of the physician who has primary responsibility for coordinating his/her care and the names and credentials and professional relationships of other physicians who will see him/her.
- Receive information from his/her physician about his illness, his/her course of treatment and his prospects for recovery in terms that he/she can understand
- Receive as much information from his/her physician about any proposed treatment or procedure as he/she may need in order to give informed consent or to refuse this course of treatment. Except in emergencies this information shall include a description of the procedure or treatment. Patient will be informed of consequences of not following the proposed course of treatment.
- Actively participate in decisions regarding his/her medical care to the extent permitted by law, this includes the right to refuse treatment or change his/her primary physician.
- Full consideration for privacy concerning his/her medical care program. Case discussion, consultation, examination and treatment are confidential and should be conducted discreetly. The patient has the right to be advised as to the reason for the presence of any individual.
- Confidential treatment of all communication and records pertaining to his/her care and his/her stay at Skyway Surgery Center. His/her written permission shall be obtained before his/her medical record can be made available to anyone not directly concerned with his/her care, except when release is required by law.
- Reasonable responses to any reasonable request he/she may make for service.
- Availability of methods for expressing grievances or suggestions through direct communication or patient satisfaction surveys.
- Leave Skyway Surgery Center even against the advice of his/her physician.
- Reasonable continuity of care and to know in advance the time and location of appointment as well as the physician providing the care.
- Be advised if Skyway Surgery Center/personal physician proposes to engage in or perform human experimentation affecting his/her care of treatment; the patient has the right to refuse to participate in such research projects.
- Be informed by his/her physician or a delegate of his physician of his continuing health care requirements following his/her discharge from the surgery center.
- Receive an explanation of fees for service and payment policies.
- Know which Skyway Surgery Center rules and policies apply to his/her conduct and responsibilities as a patient.

- Have all patient rights apply to the person who may have legal responsibility to make decisions regarding medical care on behalf of the patient, if a patient has been judged incompetent by the state.
- Be advised of the services available at Skyway Surgery Center including ambulatory surgical services, capability of 23 hour care, and minimal lab testing.
- Knowledge of provisions for 23 hour care and extended post-anesthesia care arranged in advance for patients having surgical procedures.
- Have the right to receive information regarding Advanced Directives (living will and/or durable power of attorney for health care decisions), and to have your advance directive followed to the extent that is medically appropriate and lawful.

PATIENT RESPONSIBILITIES:

- Provide complete and accurate information to the best of his/her ability about his/her health, any medications, including over-the-counter products and dietary supplements and any allergies or sensitivities.
- Ask for an explanation if you do not understand papers you are asked to sign or anything about your own or your child's care.
- Gather as much information as you need to make informed decisions.
- Be available so staff can teach you how to care for yourself or your child; we want to share our knowledge with you, but you must be prepared to learn.
- Follow the care prescribed or recommended for you or your child by the physicians, nurses, and other members of the health care team; remember, if you refuse treatment or do not follow instructions you are responsible for your actions.
- Respect the rights and privacy of others.
- Assure the financial obligations associated with your own or your child's care are fulfilled.
- Responsible for being respectful of his/her personal property and that of other persons in the Center.
- Take an active role in ensuring safe patient care. Ask questions or state concerns while in our care. If you don't understand, ask again.
- Provide a responsible adult to transport you home from the facility and remain with you for 24 hours, if required by your provider.
- Inform his/her provider about any living will, medical power of attorney, or other directive that could affect his/her care.

5250 Old Orchard Road, Suite 200
Skokie, IL 60077
(847) 853-6060

OR

Medicare patients should visit the website below to understand your rights and protections <http://www.medicare.gov/claims-and-appeals/medicare-rights/get-help/ombudsman.html>

ADVANCE DIRECTIVES:

An "Advance directive" is a general term that refers to your oral and written instructions about your future medical care, in the event that you become unable to speak for yourself. Each state regulates the use of advance directives differently. There are two types of advance directives: a living will and a medical power of attorney. If you would like a copy of the official State advance directive forms, visit http://oag.ca.gov/consumers/general/adv_hc_dir

OUR SURGERY CENTER'S ADVANCE DIRECTIVE POLICY:

It is the general policy of the operating room that all patients are to be granted the benefit of resuscitative efforts in the event of a cardiac arrest regardless of the underlying disease and circumstances. Skyway Surgery Center recognizes that despite careful explanation of the facts and principles of therapies utilized in the operating room some patients may insist on the continuation of their DNR status into the operative setting. Patients who wish to continue their DNR status into the operative period must go through an informative process with the anesthesiologist and surgeon discussing the continuation or suspension of the DNR order during surgery. If a DNR is to be rescinded in the operating room, the anesthesiologist and surgeon will explicitly discuss with the patient and document in the medical record, the circumstances under which the DNR will be reinstated.
